English (Native)

Jessica Palmer

QA Lead

PROFESSIONAL SUMMARY

QA Lead with 8 years of experience building automation frameworks and leading quality assurance strategy across web and API testing for enterprise applications.

WORK EXPERIENCE

Senior QA Engineer — Trident Data Systems Inc.

Nashville, TN | Nov 2020 – Aug 2026

- Led QA strategy and test planning across 3 concurrent product releases.
- Built and maintained an automated regression suite integrated into the CI pipeline.
- Mentored a team of 4 QA engineers on automation best practices.
- ★ Built a Selenium/TestNG automation framework covering 85% of regression scenarios, cutting manual test cycles from 5 days to 1 day.
- ★ Reduced production defect escape rate by 30% through standardized QA processes.

QA Analyst — Summit Software Labs

Nashville, TN | Jan 2018 – Oct 2020

- Executed manual test cases for web and mobile application releases.
- Logged and tracked defects through resolution using JIRA.
- ★ Designed a Postman-based API test suite that caught an average of 12 defects per release.

PROJECTS

• Test Automation Framework

Built a Selenium/TestNG automation framework covering 85% of regression scenarios, cutting manual test cycles from 5 days to 1 day.

• API Test Suite

Designed a Postman/Newman-based API test suite integrated into CI, catching an average of 12 defects per release before staging.

• QA Process Standardization

Led standardization of QA processes across 3 product teams, reducing production defect escape rate by 30%.
