PROFESSIONAL SUMMARY

Principal Architect with 13 years of experience designing large-scale distributed systems, cloud architecture strategy, and technical governance for enterprise platforms.

TECHNICAL SKILLS

System Architecture • AWS/Azure • Microservices • Java • Go • Security Architecture • Event-Driven Systems • Technical Governance

WORK EXPERIENCE

Chief Architect — Ironclad Systems Inc.

Boston, MA | Mar 2017 – Sep 2026

Roles & Responsibilities:

- Owned technical architecture and governance across all engineering teams.
- Chaired the architecture review board evaluating major system design proposals.
- Advised executive leadership on cloud strategy and technical risk.

Key Achievements:

- ★ Designed the multi-region, active-active architecture achieving 99.99% uptime SLA.
- ★ Directed the migration to an event-driven architecture, improving scalability under peak load by 5x.

Senior Software Engineer — Vertex Systems Group

Boston, MA | Jun 2013 – Feb 2017

Roles & Responsibilities:

- Designed and built backend services for a high-volume financial data platform.
- Led design reviews for new service proposals within the engineering org.

Key Achievements:

- ★ Redesigned the core data ingestion pipeline, improving throughput by 4x.

PROJECTS

• Multi-Region Platform Architecture

Designed the multi-region, active-active architecture for the company's core platform, achieving 99.99% uptime SLA.

• Event-Driven Migration

Directed the migration from a monolithic request/response system to an event-driven architecture, improving scalability under peak load by 5x.

• Security Architecture Review

Led a company-wide security architecture review, closing 20+ high-priority vulnerabilities ahead of a major compliance audit.

EDUCATION

M.S. in Computer Science, Boston University, 2013

CERTIFICATIONS

- AWS Certified Solutions Architect – Professional (2022)
- TOGAF 9 Certified (2020)
