CAREER OBJECTIVE

Recent Computer Science graduate with strong fundamentals in programming, data structures, and cloud basics. Eager to apply academic projects and internship experience to real-world software engineering problems.

EDUCATION

B.S. in Computer Science, San Diego State University, 2026

TECHNICAL SKILLS

Python • Java • SQL • Git/GitHub • Data Structures & Algorithms • Basic AWS • Linux Basics

ACADEMIC PROJECTS

Built a campus event-discovery web app (Python/Flask + PostgreSQL) as a capstone project, used by 500+ students.

INTERNSHIP

Software Engineering Intern — Coastline Analytics

San Diego, CA | Jun 2025 – Aug 2025

- Built internal dashboard features using Python and SQL under senior engineer guidance.
- Wrote unit tests improving code coverage for a legacy reporting module by 25%.

CERTIFICATIONS

- AWS Certified Cloud Practitioner (2026)
- Python for Everybody Specialization — Coursera (2025)

ACHIEVEMENTS

- Dean's List, 3 consecutive semesters (2024–2025)
- 1st Place, University Hackathon — Campus Sustainability Track (2025)

EXTRACURRICULAR ACTIVITIES

- Vice President, Computer Science Student Association
- Volunteer coding tutor, local high school outreach program

LANGUAGES

English (Native)
