■ OBJECTIVE

Recent Computer Engineering graduate with a foundation in embedded systems, networking, and software development, seeking to grow as a software engineer.

■ TECHNICAL SKILLS

C++ • Python • Embedded Systems Basics • Git/GitHub • Basic Networking

■ EDUCATION

B.S. in Computer Engineering, University of Central Florida, 2026

■ ACADEMIC PROJECTS

Built a low-power IoT temperature monitoring system (C++ on Arduino + Python dashboard) for senior design project.

■ INTERNSHIP

Engineering Intern — Orlando Systems Lab

Orlando, FL | Jun 2025 – Aug 2025

- Assisted in testing embedded firmware for a sensor-monitoring product line.
- Documented test results and defect reports for the engineering team.

■ CERTIFICATIONS

- Cisco CCNA: Introduction to Networks (2025)
- NPTEL — Data Structures and Algorithms (2025)

■ ACHIEVEMENTS

- Best Senior Design Project Award, UCF Engineering Showcase (2026)

■ EXTRACURRICULAR ACTIVITIES

- Member, IEEE Student Chapter
- Robotics club volunteer mentor

■ LANGUAGES

English (Native) • Spanish (Fluent)
